Saturday

June 2

My dear Admiral

In docking ships

the papers got. (or

Dock authorities) always

require to be furnished

with a number of particulars

and time would be

saved if you could

enable me to insert

those in the application

I think they have two docks,
a large & small one, either

of which might be suitable

for a small ship - or one might

be more suitable than the other -

I enclose a note of the

leadings of the particulars

furnished in the case

of the Modeste. You

could direct a memo.

2

Containing similar
information respecting
this to be put under
cover to me tomorrow. I

4- should receive it - in time
to write in early on
Monday morning

Yours very truly

Harvey Barker
